

Instant payments for a seamless financial experience

Harness the power of real-time payment rails to securely transfer money to bank accounts or selected global cards in seconds.

Leverage leading payment rails

Payment rails are the networks that power real-time payments. The Acquired.com platform provides access to multiple payment rails, offering flexibility and reach when sending or receiving money.

Faster Payments

Automate payouts with Faster Payments, the trusted network for UK instant bank transfers.

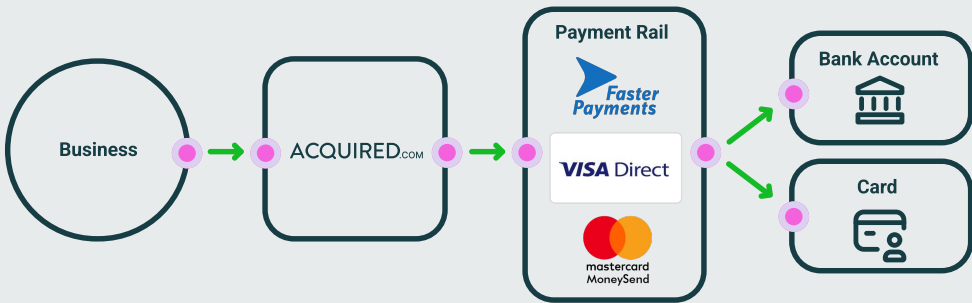

Visa Direct

Reach your consumers globally with Visa Direct. Send real-time payments directly to VISA debit and prepaid cards internationally.

Mastercard Send

Offer worldwide reach with Mastercard Send. Deliver secure and instant payments directly to Mastercard debit cards.

Provide instant access to funds

✔ Payouts to consumers

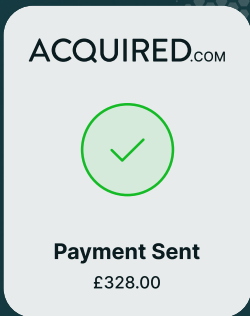

Send funds directly into consumer bank accounts for loans, insurance claims, or to provide access to their earnings – all within seconds.

✔ Payouts to businesses

Give businesses more control over their cash flow with immediate access to sales revenue and funds.

✔ Cross-border remittances

Facilitate fast and secure cross-border payments, ensuring speedy delivery to your recipient’s bank account or digital wallet.

How it works

Easy access to payment rails

— Faster Payments

Initiate a payout from an Acquired.com managed account to a UK bank account via the Acquired.com API or manually on the Hub. All you need is the recipient’s name, sort code and account number.

The Acquired.com account is fully in your control and might be where you choose to get your Card, Pay by Bank or Direct Debit transactions settled, giving you immediate access to your funds for Faster Payment payouts.

— Visa Direct & Mastercard Send

Send the Acquired.com API instruction to ‘credit’ a chosen consumer’s card - the correct payment rail will be used automatically and once the payment goes through they’ll receive the funds instantly.
